TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c. 61, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Cornice Mouldings, Balusters, Trusses, &c.; Grotesque and other Chimney Shafts.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL. Light and Dark Cement to any Trade. Also, Manufacturers of PLASTER of PARIS. Importers of MARBLE and PORCELAIN. Dealers in Stains, Slabs, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS. Manufactured by J. B. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c. Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement that requires no colouring.—Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster; and Peel-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal use.—These will harden hard as stone dry rapidly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brickwork, it may be mixed with three to four parts of sand; and for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Bankfield, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, or also at his Wharfs in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require either at his Works, Millwall, Poplar; 31, Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Keene's Cements, French and English Plaster, &c.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall. March, 1852.

4, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in considerable advance of any before obtained in Portland Cements. It possesses extraordinary setting qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack; combined with which its eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by T. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PATENT PORTLAND and ROMAN CEMENTS.—WINKFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some handy contracts, are prepared to execute orders to any extent for either of the above Cements. Many highly respectable references can be given where their concrete have been successfully used. Orders received and executed either from their works at Greenwich, or their wharfs Lawley Wharf, Chelsea, or 34, Wharf, Harrow-road, Paddington.—Agent at Southampton, Mr. GEORGE SHARP, Union Wharf.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy Stone, but is much better adapted to engineering works, from the facility with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg, in a similar work at Ashburton; and at Dover New Pier, to unite the masonry. The foundations of the eastern pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay Isle of Wight, has been constructed of no other material but this cement and sea shingle. The work extends 300 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The superiority of the varied qualities of Roman Cements are superseded by the use of this improved manufacture. CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight. Agent for Southampton, R. L. FLUDER, American Wharf.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT. As used at St. George's Hospital, Hyde Park Corner. JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Dock Warehouses, Barracks, Schools, Prisons, &c. One coat will cover 100 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY. JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its undoubted claim for internal as well as external purposes, places it above all other materials of the kind; it has no caustic qualities, may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hardas stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained on application to the Sole Agents, PHILIP HARE and Co. at the Warehouses, 28, Steed-yard, Upper Thames-street. A liberal allowance to wholesale dealers.
